INNOPOLIS UNIVERSITY

structuring your thesis text

Writing up BS/MS Thesis

Oksana Zhirosh

F2026

Agenda:	**Learning outcomes/your focus:**
1. Thesis at IU – WHAT?	1.1. What will you need to submit? 1.2 What does a thesis at IU look like?
2. Thesis at IU - WHY?	2.1 Who will read your thesis? 2.2 How does this audience impact your thesis text? 2.3 How does this audience impact your writing process?
3. Thesis at IU – HOW?	3. Write the Content section of your thesis.

1. Thesis at IU – WHAT?

your focus:

1.1. What will you need to submit?

List thesis submission items - 3 BS, 4 MS.

Write submissions deadlines

1.2. What does a thesis and an abstract at IU look like?

Describe requirements:

(1) **pages**

(2) default **parts**

Open Thesis regulations https://moodle.innopolis.university/course/section.php?id=33667#.
Read and answer the questions:

Task 1. p. 18, clause 3.5.

1. When will you know the date of your thesis defense?
2. How will you be informed of the date?

Task 2. p.24, clauses 6.11-6.15

3. BS: list the 3 items you must submit, indicate the submission deadline
4. MS: list the 4 items you must submit, indicate the submission deadline

Task 3. p. 23

5. What is the language of the Thesis?
6. What is the language of the extended abstract?
7. What is the default structure of the Thesis?
8. What is the requirement for the minimum number of pages in the Thesis?
9. What is the default structure of the extended abstract?
10. What is the requirement for the minimum number of pages in the extended abstract?

11. Does research supervisor or reviewer give you a grade? (**appendices**)

Let your defense be on June 10th.

1. When do you need to submit your Thesis to DoE?

2. When do you need to submit you extended abstract to DoE?

3. Which means, when do you need to submit the final version of the Thesis and the Extended abstract to your thesis supervisor?

4. When do you need to submit the supervisors' review to DoE?

5. When do you need to submit the reviewer's review to DoE?

2. Thesis at IU - WHY?

your focus:

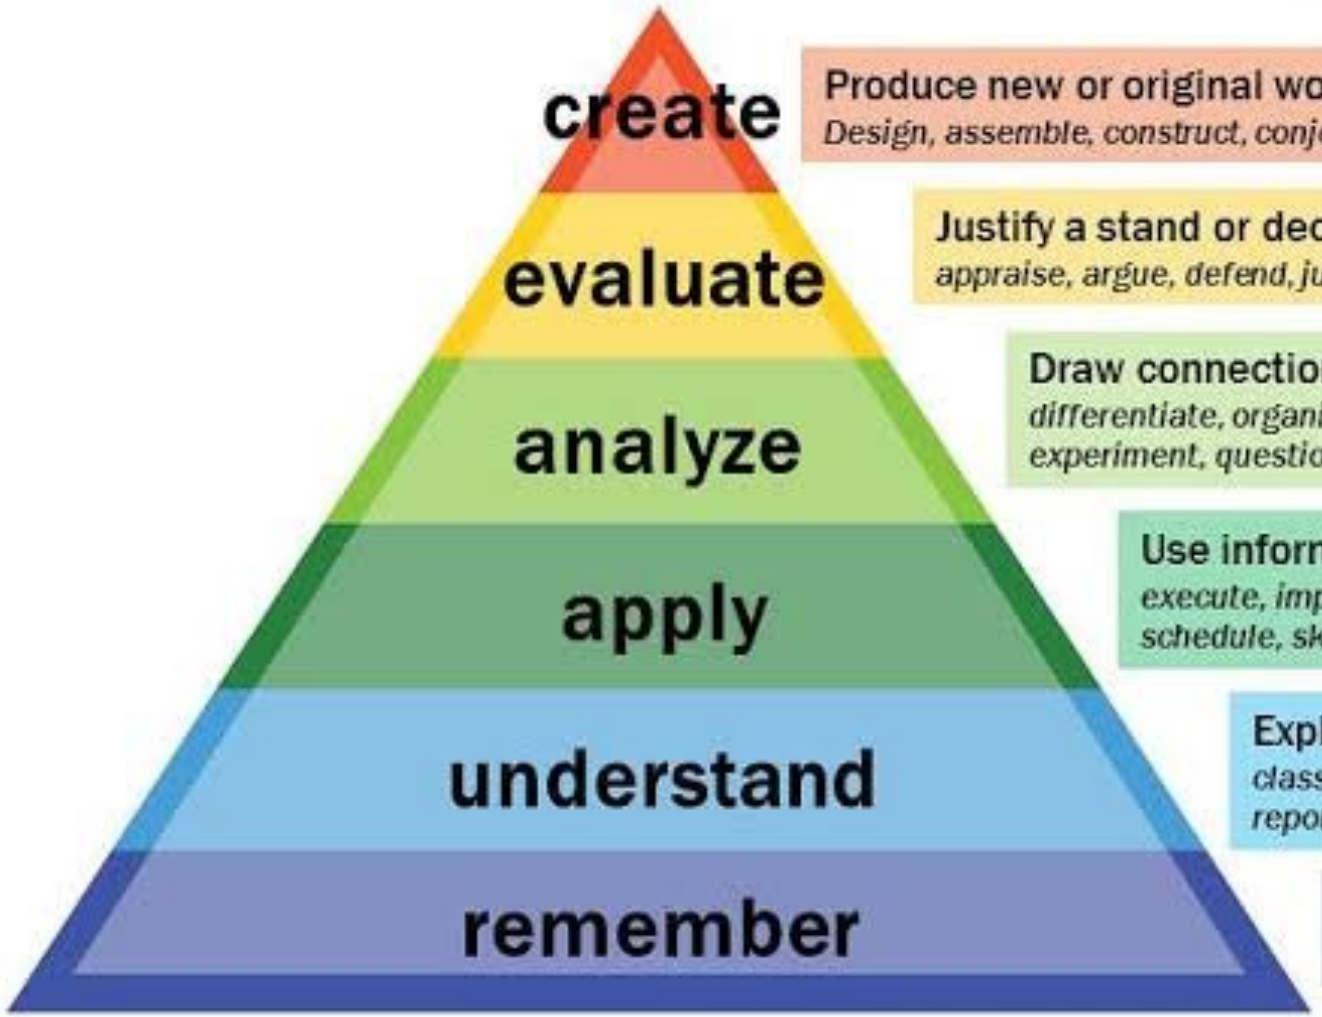

2.1 Who will read your thesis?
2.2 How does this audience impact you text?
2.3 How does this audience impact your process?

”No one will read my thesis.” FALSE

What is the purpose of the thesis work?

- generate and disseminate new knowledge
- demonstrate that you obtained all the necessary competences for autonomous work

Bloom's Taxonomy

Produce new or original work
Design, assemble, construct, conjecture, develop, formulate, author, investigate

Justify a stand or decision
appraise, argue, defend, judge, select, support, value, critique, weigh

Draw connections among ideas
differentiate, organize, relate, compare, contrast, distinguish, examine, experiment, question, test

Use information in new situations
execute, implement, solve, use, demonstrate, interpret, operate, schedule, sketch

Explain ideas or concepts
classify, describe, discuss, explain, identify, locate, recognize, report, select, translate

Recall facts and basic concepts
define, duplicate, list, memorize, repeat, state

Vanderbilt University Center for Teaching

«How do your results compare with previous results?»

«What does literature say about it?»

«Which methods were you choosing from?»
«What other methods do you know?»

«Why did you choose this method?»

«Why these metrics?»

«What does this metric mean?»

high-context cultures
meaning implicit
«read between the lines»
«we all know»

low-context cultures
meaning explicit
«read the lines»
there is no we

Hall, E.T, Beyond Culture, (1976)

WHO will read your Thesis?	WHY? Purpose	HOW? (Full text? In which order?)	What does this mean for your text and your writing process?
supervisor	- to educate you/ - to give feedback/ - to graduate you	- full text in May - chapters or parts of chapters during the year	- sequence of submissions - iteratively, amend - detailed report
defense committee	- to attest your competence - to give a grade	- some chapters in detail - some chapters – scan	- clear, explicit, detailed - remind RQs/H/purpose
general public	- for their own research	- as a research paper (scan, in detail) - as an example of a thesis	*_will be discussed during further workshops_
DoE	- check against fonts, captions etc., requirements - check originality (antiplagiat.ru, min 70%)	- figures, tables, fonts, title etc. - originality report	- follow requirements re fonts, captions, originality, title page

3. Thesis at IU – HOW?

your focus:

3. Write the Content section of your thesis.

Alternative contents #1 (system-development thesis)

describe:

- the functionality of the system to be designed;
- the parameters affecting the performance of the system;
- the limitations and restrictions of the system to be designed.

Title page

Table of contents
Tables of figures and terms*
Dedication*
Abstract (informative)

Body:

- Introduction (motivation, literature review, problem statement, assumptions, background)
- Theoretical Part / Benchmarking
- Evaluation / Experimental Study (experimental setup, methodology)
- Conclusion and Discussion

(Acknowledgements)*
Bibliography/References
Appendices

Alternative contents #2
(research-based thesis; Math thesis)

describe:

- the goals of the investigation to be carried out in the project;
- the criteria or metrics to be used to assess the outcome of the investigation.

Title page

Table of contents
Tables of figures and terms*
Dedication*
Abstract (informative)

Body:

- Introduction
- Problem and Discussion
- Methods and Results
- Concluding Discussion

Bibliography/References
Appendices

Startup as a thesis

Chapters <u>additional</u> to your main thesis:

- Competitor analysis (direct and indirect, table)
- Market analysis
- Product Market Fit
- Monetization model
- Financial plan, unit economics and scaling

YOU DECIDE 

HOW: Consider:

1. IU requirements
2. Domain-specific structures
3. Structures of your supervisors' recent papers.

Task 3.1

- Take 3-5 recent papers of your research supervisor or other authors from your research domain.
- Analyze the headings of the sections. Identify the pattern.

Once upon a time ….

There has long been this problem (or recently emerged).

This is why it is important.

Previously is has been addressed in such and such ways, which had their benefits, but also limitations.

or

No one has ever addressed this problem.

or

No one has ever approached this problem with this method.

or

No one has ever used this method on this population.

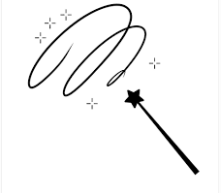

So, we decided to give it a try. Particularly, we addressed these RQs (or tested these Hypotheses): …

To answer those research questions/to test those hypotheses, this is what we did.

And this is what we found.

This is how our results compare to the previous ones.

To conclude, our contribution is …

… graduated and lived happily ever after.
